PROFESSIONAL PROFILE

Results-driven Senior Full-Stack Developer with 4+ years of professional experience designing, building, and deploying scalable web applications, SaaS platforms, and business automation systems. Experienced in delivering end-to-end digital products — from UI/UX design through backend engineering to production deployment — across education, eCommerce, media, and service industries. Proven track record of collaborating with international clients and teams across Europe and South Asia, consistently delivering high-quality, on-time solutions.

CORE COMPETENCIES

Full-Stack Web Development | React & Next.js | Node.js & Express.js | PHP & Laravel | REST API Design | SaaS Platform Architecture | UI/UX Design | MySQL & MongoDB | Firebase | Payment Gateway Integration | Admin Dashboard Systems | eCommerce Development | Business Automation | Git & GitHub | SEO Optimization | Figma & Adobe XD

PROFESSIONAL EXPERIENCE

Web Developer • RizQara Tech — Dhaka, Bangladesh (remote) *Jan 2024 – Present*

- Lead developer responsible for full product lifecycle of client web projects: architecture, design, development, and deployment
- Built 10+ production platforms across eCommerce, streaming, EdTech, CRM, and messaging industries for local and international clients
- Key platforms: Pengu (EdTech SaaS), Get Project (outreach CRM), ElevateCV (career SaaS), Auraz Ecommerce, SunflixPro

Full-Stack Developer • NovaByte Solutions — Berlin, Germany (Remote Contract) *Mar 2023 – Dec 2024*

- Developed and maintained full-stack web applications for SME clients across Germany and the EU market
- Built custom admin dashboard systems, CRM modules, and automated reporting tools using React and Node.js
- Collaborated directly with a European product team using Agile sprints, Jira, and daily stand-ups across time zones
- Delivered 3 production-ready platforms on schedule, receiving commendations for code quality and communication

Frontend Developer • Brightloop Digital — London, UK (Remote Contract) *Jan 2022 – Mar 2023*

- Implemented responsive UI components and improved UX flows for a UK-based digital agency serving retail clients
- Worked with Figma design handoffs and translated pixel-perfect designs into clean, accessible React code
- Optimised page load performance, achieving a 40% improvement in Lighthouse scores across client projects

UI/UX Designer & Frontend Developer • Daraz — Alibaba Group (Contract) *July 2021 – 2022*

- Designed UI components, interaction flows, and design system elements for one of South Asia's largest eCommerce platforms with 10M+ active users
- Delivered responsive, mobile-first interface improvements across buyer and seller journeys

SELECTED PROJECTS

Pengu — EdTech SaaS Ecosystem — *React · Node.js · MongoDB · WebSockets · AI* *2024*

- Multi-role SaaS platform connecting students with academic experts via AI task matching, live chat, gamified rewards, and commission engine
- Built three integrated portals: Student OS, Expert Gig Engine, and Admin Control Center with real-time analytics

Get Project — Cold Outreach CRM — *React (Vite) · Node.js · Worker Queue · Email API* *2024*

- Automated outreach platform with human-like email cadencing, smart follow-up sequences, auto-reply detection, and KPI dashboard

ElevateCV — SaaS Career Platform — *React · Node.js* *2023*

- Free SaaS platform with CV builder, cover letter generator, and job application email generator

Auraz Ecommerce — *React · Laravel · MySQL · Payment Gateway* *2023*

- End-to-end eCommerce system: product management, cart, orders, payment integration, and admin dashboard

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, Tailwind CSS, HTML5, CSS3
